Search Strategy Plan:

My research is related to Cryptocurrency in the future. For searching relevant information, I used some libraries. Which are IEEE, ACADEMIA and ResearchGate.

Based on last research the few keywords (Search String) which I started exploring about Cryptocurrency, Blockchain and future business (Financial platform).

I read two papers which were strongly related to my research question. and "A brief survey of Cryptocurrency systems" and "Analysis of the Cryptography Adoption Decision: Literature Review".

Inclusion Criteria:

- It must have current Cryptocurrency system and how it works

- How Cryptocurrency adoption will be increase in the business Industry or future

- At least one secure mining algorithm, mining strategy and financial software system

- The anonymous transaction and privacy.

- Cryptocurrency Price Prediction model and Global Cryptocurrency market

Exclusion Criteria:

- Initial coin offering (ICO), Token sale/offering.

- Bitcoin's strength, weakness, opportunity and Threat

- Economic and tax law

- Conjunction with Cryptocurrency
